With a design related bachelor degree, soon to be graduating with a second degree in IT application development and experience in web design and development, I have the skills you are seeking and can be a perfect fit for this position.

My skills and qualifications include but not limited to:

- IT Application Development Associate Degree expected April, 2017
- two plus years of web design and development experience, building responsive websites from scratch to going live on the web.
- two plus years experience using tools and languages such as: HTML5, CSS, Wordpress. Experience in building custom wordpress themes, using wordpress shortcodes and Bootstrap framework.
- Solid knowledge of web design methodologies, patterns and UX design. Experience in using graphic and ux design tool: Adobe Suite, Axure, Balsamiq as well as experience in sketching, wireframing and interaction design.
